

Programming Logic and Design ITSE-1329

Summer 2026 Section 1 3 Credits 06/08/2026 to 08/13/2026 Modified 06/02/2026

Course Information

Class Meetings:

Type	Location	Days & Times
Online Lecture	Online Campus	
Online Laboratory	Online Campus	

Withdraw Date : 07/23/2026

Certification Date : 06/20/2026

Course Description

Problem-solving applying structured techniques and representation of algorithms using design tools. Includes an introduction to programming, testing, evaluation, and documentation. Topics may adapt to changes in industry practices.

State-Defined Learning Outcomes

Identify the major concepts of structured programming; illustrate the general concepts of structured design; use design tools; solve problems using logic techniques; and produce documented algorithms.

Instructor-Defined Learning Outcomes

- Students will be able to design and implement algorithms to solve basic computational problems.
- Students will be able to translate algorithmic designs into functional Kotlin code.
- Students will be able to understand and apply fundamental programming concepts, including data types, variables, control structures, and functions.
- Students will be able to debug and test their Kotlin programs.
- Students will be able to demonstrate an understanding of the principles of structured programming.

Required Course Materials

[Laboratory Materials Link \(https://www.bkstr.com/webApp/discoverShop?merfnbr=612&termDir=2026SU&division1=&department1=ITSE&course1=1329§ion1=L1\)](https://www.bkstr.com/webApp/discoverShop?merfnbr=612&termDir=2026SU&division1=&department1=ITSE&course1=1329§ion1=L1)

✓ Graded Work

The "**Criteria**" table below is a summary of all the graded work in this course.

The "**Breakdown**" table explains the final letter grade.

Criteria

Type	Weight	Topic	Notes
Quizzes	40%	Quiz administered after each topic	The lesson quizzes have up to 10 multiple choice questions. You have three attempts. The highest grade will be recorded.
Programming Assignments	50%	Programming assignments reinforce concepts learned	You will write programs to practice the concepts learned in class. You have unlimited attempts.
Final Assessment	10%	Assessing your Kotlin proficiency	This component assesses your learning of Kotlin, evaluating your comprehension and ability to utilize the language.

Breakdown

Grade	Range	Notes
A	90 to 100	Excellent
B	80 to 89	Good
C	70 to 79	Fair
D	60 to 69	Poor
F	0 to 59	Failing

Course Schedule

The table below is a summary of course topics and due dates.

Your instructor will notify you of any changes to the schedule during the term.

When	Topic	Notes
Week 1 June 8th	Syntax / Output / Comments	Due by June 19th
Week 2 June 15th	Variables / Data Types	Due by June 26th
Week 3 June 22nd	Operators / Strings	Due by July 3rd
Week 4 June 29th	Boolean / If-Else / When	Due by July 10th
Week 5 July 6th	While Loop / Break & Continue / For Loop	Due by July 17th
Week 6 July 13th	Arrays / Lists	Due by July 24th
Week 7 July 20th	Ranges / Functions	Due by July 31st
Week 8 July 27th	OOP / Classes & Objects / Constructors	Due by August 7th
Week 9 August 3rd	Class Functions / Inheritance	Due by August 13th
Week 10 August 10th	Exam Week	Due by August 13th

* Course Policies

Late Work

I understand that circumstances can arise that may prevent you from submitting assignments on time. My priority is to support your learning and ensure you have the opportunity to demonstrate your understanding of the course material. Therefore, late work will be accepted, provided you adhere to the following guidelines:

1. **Communication is Key:** If you anticipate falling behind on assignments, contact me via email. This communication should explain the reason(s) for the delay and provide an estimated submission date.
2. **Reasonable Extensions:** I will work with you to establish a reasonable extension based on the circumstances. However, excessively long or repeated extensions may not be granted.

3. **Late Submission Notification:** When you submit late work, please send me a follow-up notification to ensure I am aware of the submission.
4. **Grading Considerations:** While late work will be accepted, please be aware that significant delays may affect grading, particularly if the assignment is time-sensitive or relates to material covered in subsequent classes. In some cases, a small percentage deduction might be applied at the instructor's discretion.
5. **Exceptions:** In cases of documented emergencies or university-approved absences, the late policy may be adjusted. Please provide appropriate documentation in these situations.

Important Note: This policy is designed to encourage proactive communication and responsibility. It is your responsibility to reach out to me promptly if you are facing challenges. Failure to communicate regarding late work may result in a zero for the assignment.

Support Contacts

Contact Your Success Coach (<https://www.dallascollege.edu/successcoach>).

Every Dallas College student has a personalized Success Coach who supports them from day one to graduation. Contact your coach for help navigating college and reaching milestones leading to graduation and a career.

Get Free Tutoring (<https://www.dallascollege.edu/tutoring>).

Tutoring is free to all current Dallas College students. You can walk in or schedule an appointment at all [Learning Commons](https://www.dallascollege.edu/learningcommons) (<https://www.dallascollege.edu/learningcommons>), campus locations. Live, online tutoring is also available via eCampus.

Explore More Free Student Resources (<https://www.dallascollege.edu/help>).

You have access to many free resources as a Dallas College student, including [Counseling and Psychological Services](https://www.dallascollege.edu/counseling) (<https://www.dallascollege.edu/counseling>), [Child Care Resources](https://www.dallascollege.edu/childcare) (<https://www.dallascollege.edu/childcare>), [Housing Resources](https://www.dallascollege.edu/housing) (<https://www.dallascollege.edu/housing>), [Emergency Aid Funds](https://www.dallascollege.edu/emergencyaid) (<https://www.dallascollege.edu/emergencyaid>), [Food Pantries](https://www.dallascollege.edu/foodpantry) (<https://www.dallascollege.edu/foodpantry>), and more!

Submit the Student Care Form (<https://www.dallascollege.edu/careform>).

Not sure which free college resources can help? Submit the Student Care Form! Our [Student Care Network](https://www.dallascollege.edu/studentcare) (<https://www.dallascollege.edu/studentcare>) will connect you to support for physical and mental health, financial concerns, food, clothing, and more.

Contact Technical Support (<https://www.dallascollege.edu/techsupport>).

Need help with eCampus or another college technology? Our technical support staff can assist you.

Institutional Policies

Dallas College Policies

Please review the [Institutional Policies \(https://www.dallascollege.edu/syllabipolicies\)](https://www.dallascollege.edu/syllabipolicies) page to learn about accommodations for students with disabilities, class drop and repeat options, Title IX (harassment, discrimination, and sexual misconduct), and more.
